Steel City Vacuum Company to expand at Westmoreland Technology Park I

Company's growth continues.

East Huntingdon Township, Pa., April 11, 2012 – The Westmoreland County Industrial Development Corporation's (WCIDC) Board of Directors - Charles W. Anderson, R. Tyler Courtney and Ted Kopas announced today that Steel City Vacuum Company Inc. is expanding its operations at the Westmoreland Technology Park I in East Huntingdon Township.

Steel City Vacuum Company is in their 65th year of business and currently resides in the Westmoreland Technology Park I. They specialize as an authorized parts wholesaler for companies such as Hoover, Panasonic, Sanitaire, Sharp, Samsung, Royal, Bissell and many more. Established in 1947, as a national wholesale/distributor of vacuum parts and supplies, Steel City Vacuum Company expanded its operations just over a year ago by locating in an existing 44,000-square foot building in the industrial park. Having success with growing the wholesale vacuum business, the company is now constructing a 26,000-square foot addition onto its current facility for warehousing. "We are happy we made the decision to be located in the Westmoreland Technology Park and anxious to begin construction," said Howard Levine. "We can attribute our accomplishments to our employees' hard work and strong dedication to outstanding customer service, as well as our company's excellent location to major highways giving Steel City Vacuum even better lines of distribution."

Steel City Vacuum broke ground on Wednesday, April 11th to start construction immediately and will be hiring additional workers once the facility is completed. "We are very excited that Steel City Vacuum is expanding in the industrial park," said County Commissioner Ted Kopas, who serves as secretary of the county's Industrial Development Corporation. "An indicator that Westmoreland County is not only a great place to start a business, but expand as well." Visit www.steelcityvac.com for more information about Steel City Vacuum Company, Inc.
