*... a service of SPHS Behavioral Health
funded by the Westmoreland Drug
and Alcohol Commission ...*

WHAT WE DO

The Drug and Alcohol Case Management Unit of Westmoreland County helps individuals with substance abuse problems 'access' treatment services, with the ultimate goal of living a life of sobriety and on-going recovery through self-sufficiency.

The following services are provided by the Case Management Unit:

- * **Screening, Assessment and Referral**
- * **Case Coordination**
- * **Recovery Support**

Screening, Assessment & Referral

When a client calls or walks into the Case Management Unit, a brief screening will occur to determine whether or not a drug and alcohol assessment is needed.

An individualized assessment will determine the level of treatment services needed. The following levels of treatment care are available:

- * Detoxification; hospital or non-hospital
- * Residential & Halfway House
- * Outpatient services; partial, intensive and traditional outpatient care

Referral to the appropriate level of care and client chosen treatment facility will be coordinated by the case manager for treatment. Preferential treatment services are available for pregnant women.

Individuals will be assisted in accessing available funding sources for treatment.

Case Coordination

Case Coordination Services are offered to all individuals who are experiencing problems relating to alcohol and other drugs. Case managers will work with all individuals to address barriers or improve skills in the following life areas:

- * Basic Needs
- * Child Care
- * Education / Vocation
- * Employment
- * Family / Social
- * Housing / Living Arrangements
- * Legal Issues
- * Life Skills/ Budgeting
- * Emotional / Mental Health
- * Physical Health Care Issues
- * Transportation Options

Case managers work with individuals to:

- Evaluate needs
 - Identify strengths
 - Help with goal setting
 - Link to identified resources
 - Advocate for an individuals rights
 - Act as a Coach when working towards goals
-
-

Recovery Support

Certified Recovery Specialists (CRS) offer guidance and experience on the recovery process. CRS staff work closely with the case management staff to assist individuals throughout the recovery process to rebuild their life. Recovery Support services are voluntary and free of charge. A CRS will offer the following:

- * Guidance in the recovery process
 - * Introduction to other recoverees in the recovery community
 - * Provide support before, during and after treatment
 - * Moral support, coaching and advocacy
 - * Assistance in building life skills
 - * Recovery Education
 - * Introduction to recovery support groups
 - * Support through feelings of uncertainty, fear and discomfort of early recovery
 - * Access to vital community services and supports
 - * Exploration of fun and safe alternatives to using drugs and alcohol
 - * Give guidance in building healthy social relationships to support recovery
 - * Help an individual achieve a new level of freedom while adding meaning and new purpose to one's life.
