Hamilton® CapTel® 840i

- I prefer traditional buttons when navigating on-screen menus
- I like the size and feel of a traditional phone
- The Hamilton CapTel 840i is right for me!

About simple

Someone you care about just can't use the phone – Hamilton CapTel is a solution. Designed exclusively for individuals with hearing loss, the Hamilton CapTel phone works just like any other phone. When the phone rings, you answer. When you want to make a call, you dial the number.

Difference: With Hamilton CapTel, you listen and read word-for-word captions of everything said to you over the phone.

...ed about Heroes With Hearing Loss through my support group. I lost most of my hearing from an RPG in Iraq. I received a Hamilton CapTel phone and now how I managed to make calls without one."

Talk about results

Since 2003, Hamilton CapTel has made more than 90 million captioned telephone conversations possible for individuals with hearing loss. This is the kind of dedication and proven captioned telephone technology you can count on every day.

- Listen and read captions of everything said on every call – incoming and outgoing.
- Integrated answering machine "captions" for your voice messages.
- Adjustable volume control (up to 40dB gain) ensures comfortable listening levels.
- A nationwide service – available to individuals with hearing loss at no cost.

Hamilton CapTel 2400i

The Hamilton CapTel 840i and 2400i require telephone service and high-speed Internet access. WiFi Capable.
