

<http://starproviders.org/>

Star Behavioral Health Providers (SBHP) is a resource for veterans, service members and their families to locate behavioral health professionals with specialized training in understanding and treating military service members and their families. Those listed in this registry have completed a series of trainings that are intended to make them better able to understand, assess and counsel members of the military. SBHP began in Indiana and is now offered in multiple states with more to come. *The states in purple are the ones currently offering SBHP. Please select your state below.*

STAR BEHAVIORAL HEALTH PROVIDERS

Civilian Professionals. *Military Sensitivity.*

PENNSYLVANIA: Star Behavioral Health Providers (SBHP) is a training, dissemination and referral system aimed at expanding access to trained behavioral health providers for service members, veterans and their families.

The SBHP Registry is a comprehensive resource for service members, veterans, and their families, wherein they can search for qualified and specially trained service providers in their own communities.

What is Star Behavioral Health Providers?

The mission and intention of Star Behavioral Health Providers is to take care of Pennsylvania service members, veterans and their families. To do this, SBHP intends to recruit and train interested civilian behavioral health providers in military specific culture and treatments that focus on the needs of the military population.

A second aspect of this initiative is to create a registry of these specially trained providers so that service members, their families, and referring professionals can access those trained providers. SBHP will manage the registry to insure providers are qualified to be listed in the registry by licensure and completion of designated trainings.

TIER ONE: Classroom Only

Military Culture and Terminology: Enhancing Clinical Competence

Learning Objectives:

1. Recognize the structure and major components of the United States military.
2. Identify common characteristics of the military population and how they compare to the general population.
3. Discuss the importance of a distinct culture to the military.
4. Describe elements of the military experience and lifestyle that are integral to military culture.

The Deployment Cycle and Its Impact on Service Members and Their Families

Learning Objectives:

1. Describe the demographic characteristics of Service members and their families.
2. List the three phases of the deployment cycle and the events common to each phase.
3. Identify stressors commonly confronted by Service members and their families before, during, and after deployment.
4. Discuss challenges that Service members face in achieving successful post-deployment reintegration.

Military Culture - Online (CEUs can be provided directly from Center for Deployment Psychology for a nominal fee.)

For more training in Military Culture, an online course is an option. The online course takes approximately 180 minutes to complete depending upon any previous knowledge you have about the military. You will have the option to take the course for free, or for continuing education credits, for which there is a nominal fee: <http://www.deploymentpsych.org/online-courses/military-culture> This course is administered by a third party and subject to change without notification. Please verify CEUs and cost prior to taking the course. ***This course does not replace the attendance requirement for Tier One.***
