

Make time for you

Maintaining your overall health is especially important during COVID-19. Preventive screenings and services are a key part of staying healthy.

Preventive screenings offer many health benefits

Preventive screenings help identify problems early when they are most treatable. It's also a chance for you to ask questions.

There is no cost*

We work closely with our parent company, UPMC, to deliver the care and coverage you need. UPMC Health Plan covers many screenings, immunizations, and health exams at 100 percent when you see a participating provider.

We are taking every measure to keep you safe

UPMC facilities and physician practices, as well as community doctors and hospitals, follow all guidelines from local and state departments of health and the Centers for Disease Control and Prevention (CDC).
