

September is National Senior Center Month
“The Key to Aging Well” at your Center for Active Adults

Each September we celebrate National Senior Center Month at 13 Centers for Active Adults throughout Westmoreland County. This year’s theme “Senior Centers: The Key to Aging Well” was chosen to highlight how centers have the knowledge, programming and resources to make a difference in people’s lives – the virtual key to unlocking the components that will give an individual the opportunities to age well.

During September, we encourage individuals to visit their local Center and learn more about the activities, programs, classes, and meals offered.

Mark your calendar today for these Center for Active Adults Open Houses. If you’re planning on visiting one of the centers for lunch, please call ahead to reserve your meal.
